

Pre-Surgery Checklist For Cats

New Client

Please be sure to bring the following forms with you, they are available at www.fallsroad.com

1. Owner Registration Form
2. Spay/ Neuter Drop Off Form

Existing Client

Please update your contact information.

Day of Surgery

Please follow the [surgery drop-off instruction](#) for day before and day of drop-off procedure.

Vaccination: The following vaccines are required for surgery.

Please be sure to Bring Proof of Vaccination

1. FVRCP – \$36.70
2. Rabies – \$20.50

Flea Prevention

For the safety of our guests we recommend the use of a monthly flea preventative. All pets checking into our facility will be checked for fleas. If fleas are present, we will treat your pet, and you will be responsible for charges.

Optional Services We Recommend

A few optional services can be performed while your pet is here with us:

1. Preoperative liver and kidney blood testing (required for pets 6 years or older) – \$114.00
2. IV Catheter placed during surgery (required for pets under 5lbs) – \$72.75
3. Feline Leukemia and Feline Aids Testing – \$59.55
4. Post-operative Pain Medication – \$36.70
5. Microchip – \$46.10

Missing Vaccinations?

We can administer them while your pet is with us, for an additional charge.

Please note:

Should your pet weigh over 29, lbs additional fees will apply for the use of anesthesia. If your pet exhibits any illness, including but not limited to: fleas, worms, ear mites, vomiting, diarrhea, bloody urine, respiratory problems, or severe skin problems, appropriate therapy and medication will be initiated. In addition, should your pet be in heat, pregnant, or have a cryptorchid, additional charges will apply.
