In the event of an in **hospital emergency**, CPR may need to be initiated. In order for us to provide the best care of our patients, some decisions need to be made immediately. Please indicate your intentions should an arrest situation occur. All efforts will be made to contact you in the event an emergency arises.

- YES, I want full resuscitation efforts. All reasonable attempts will be made to preserve life.**
- NO, I do not wish any resuscitation efforts.**

# Falls Road

ANIMAL HOSPITAL

Although commonplace, a spay/neuter surgery is a major procedure. **Preoperative liver and kidney tests** can greatly reduce the risk of anesthesia by evaluating the major pathways through which anesthesia is metabolized. The surgical staff strongly recommends pre-anesthetic screening. An intravenous catheter allows drugs or fluids to be administered quickly in the event of an emergency.

Please initial your choice	Cost	Yes	No
I would like preoperative liver and kidney blood testing performed (required for pets 6 yrs or older)	\$114.00		
I would like an IV Catheter placed during surgery (required for dogs 5 lbs and under)	\$72.75		
Heartworm disease test	\$58.35		
I would like my CAT tested for Feline Leukemia and Feline Aids	\$59.55		

In order to serve the interests of all our patients, we recommend **pain management** for **ALL SURGERIES**. Pain management is best controlled prior to painful stimuli. Patients deemed uncomfortable will be given pain medication at our discretion. This service is provided at an additional charge. Please make your selection:

Please initial your choice	Cost	Yes	No
I want pain medication for my CAT (hospital injections and medication to go home)	\$36.70		
I want pain management for my DOG (hospital injections before & after surgery AND home pills)	\$57.65		
I would like my pet to receive a Microchip while it is asleep	\$46.10		

The veterinarians at The Falls Road Animal Hospital will address all the problems listed above and help resolve them. Unless otherwise specified by you, we will begin treatment at the time of examination.

For the protection of your pet as well as others, **vaccinations are required to be up to date for all hospitalized patients**. Proof of vaccination must be presented at the time of admission. Should proof of vaccination not be submitted nor vaccination status be verified by another veterinarian, Falls Road Animal Hospital will administer the necessary vaccines at the client's cost. here will be additional charges for spays and neuters for pets weighing over 29 lbs., in heat, or pregnant. In addition, should your pet exhibit any illness, including but not limited to: fleas, worms, ear mites, vomiting, diarrhea, bloody urine, respiratory problems, or severe skin problems, appropriate therapy will be initiated. Treatment, medication, or a special diet may result in a charge. Hopefully, intervention will not be necessary. Early diagnosis and treatment may curtail progressive disease and prevent risk to others.

**We discourage you from leaving personal belongings with your pets.** Falls Road Animal Hospital cannot be responsible for items left with your pet. Payment is due in full when services are rendered. There is a monthly 2% interest for all past due accounts. Collection fee of 50% is charged for accounts 90 days past due. Forms of Payment accepted: Visa, Mastercard, Discover, Debit, Care Credit, and Cash. We do not accept Checks and American Express.†

I have read and understand the above.
